Shiva is a passionate and collaborative User Experience Designer with 8+ years of experience with expertise in AI-driven UX design, he blends social behaviour insights with cutting-edge technology to build delightful experiences that create impact at scale.

WORK EXPERIENCE

Lead Experience Designer

May 2021 - Present

- Led the end to end UX strategy for Engage X. Transforming fragmented campaign operation into a scalable multi channel platform with **50 Cr revenue in pipeline**
 - Phase 3 - AI enabled scheduler, AI channel selection, Generative AI content creation.
 - Phase 2 - Analytics dashboard, Flow builder, Dynamic goals and events
 - Phase 1 - Channels Onboarding, Campaign/ Template creation, Reporting, Scheduler, Audience
- Revamped the IQ Reach platform to help **1M+** users to engage with their customers in an omni channel experience
- Led the redesign of core/new Airtel journeys for Prepaid, Postpaid, DTH, Fiber, Xsafe, and Esim. This resulted in **5%** increase in gross ads and boosted Esim activations to **100,000** per month. Received **2 awards** for it
- Designed the end-to-end experience for **Airtel Black**. At 100% rollout in all circles Airtel Black created **17.6M homes**

Senior Product Designer

Jan 2020 - May 2021

- Led the design team to build the core features of the Bijak app, including mandi rates, referral program, and credit engine, from scratch. These features increased user engagement and generated a revenue of **5M+** on the platform
- Hired and mentored designers in Bijak's core design team. Ensured the quality of designs through regular reviews and feedback sessions
- Established design guidelines for the 'Bijak' app and 'Just' app. These guidelines later evolved into a full blown design system
- Proposed a vernacular approach to scale the product across India. Starting with 2 & later 24 languages which helped in penetrating tier 2/3 cities led to **2M+** additional revenue

Senior UI/UX Designer

Jun 2018 - Nov 2019

- Designed the end-to-end experience of the Toffee Insurance seller app and website. Toffee seller app enabled our users to sell **30%** more insurance monthly
- Revamped claims process. The new and improved claims journey enabled customers to self-serve on the platform, reducing claim settlement time from weeks to days

UI/UX Designer

Jun 2017 - Jun 2018

- Designed engaging interfaces and managed feature execution
- Redesigned the UX for multiple screens of the BYO app and implemented gamification strategies
- Created over **500** icons for the BYO app, including both color and line versions, for use in the app and on the website
- Designed multiple landing pages for product campaigns

EDUCATION

MFA in Visual Communication

Year 2017

College of Arts (New Delhi)

Year 2014

College of Arts (New Delhi)

CERTIFICATION

Generative A.I

Year 2024

Deeplearning.ai

SKILLS

AI Skills

- Conversational UX
- Agentic UX
- AI assisted prototyping
- Personalisation/ Recommendation UX
- AI task automation
- Vibe coding

User Research

- Moderated/Unmoderated interviews
- Competitive benchmarking
- Field studies
- Qualitative/Quantitative analysis

Prototyping

- Low/mid/high complexity prototypes

Usability Testing

- Moderated/Unmoderated testing
- Remote testing
- Validation testing
- A/B testing
- Guerilla testing

Visual Design

- UI design
- Design systems
- Data visualisation
- Responsive/Adaptive design
- Interactions/Motion design
- Product illustrations
